

# THE MUSIC

Love the music you've heard at on our  
Active Babies Smart Kids TV series?  
We do too!!

Here is some information on our  
wonderful musicians and how to purchase  
their music.

## Tessarose Productions

Kiwis, Tessa Grigg and Brian Ringrose, formed Tessarose Productions in 1999. The music (all 700 songs) has been created with young children's developmental needs and the latest findings in early education in mind. The songs are simple and slow enough for young children to understand and then respond to, and the words repetitive and clear so children can sing along.

### **Tessa Grigg (B.Ed, Dip Tch (Primary) Dip Tch (ECE)**

Tessa has a wide range of experience within the Early Childhood Education field. She has taught in a Primary School, supervised a Pre-school with specialist work in the sensory motor area, worked as a Child and Family Therapist, taught Nanny students and has owned and operated a GympaROO centre for 9 years. Tessa's experience in teaching pre-school children spans 30+ years but the strength in her experience is that it has been in a variety of settings.

### **Brian Ringrose: Entertainer**

Brian has had over thirty years' experience in the music business, both in the recording field and as a performing artist. He has performed

both nationally and internationally and was part of the original Invaders Band that played with Ray Columbus. Brian has worked for television (a fifteen year involvement) and continues to play to live audiences on a regular basis while working in his recording studio in the daytime. Music produced by Brian has been sold internationally with feedback that recognises his versatility and creative abilities.

### **Wendy Van Kesteren and Christophe Magnan**

Wendy and Christophe are a French/Australian team in work and life. They have been performing, composing and writing songs together for over 20 years. They live in France and perform regularly in Europe. When Christophe is not entertaining he composes and records music: producing albums for various projects, writing sound tracks for films, web sites and advertisements.

Being parents, professional musicians and having friends in the GymbaROO (TKG) team, the Active Babies Smart Kids TV series provided a great opportunity for them to turn their hand to children's music, with fabulous results!!

And so began **CandyLion**.

Wendy "It has been very interesting to rewrite and 'play' with these songs that hold such treasured memories for me. We hope you enjoy CandyLion's refreshed versions of these great songs and nursery rhymes and that they help to create some loving and lasting memories for you and your children too".
